Dear Friends of Children,

The whole world was privileged in witnessing the live coverage of the long-awaited Canonization of Mother Teresa on 4th September 2016, Sunday about nineteen years after her death. She was elevated to this highest honour not just because of her powerful mysticism or her life of prayer but because of her compassion, which she expressed through acts of love.

Mother Teresa’s power of intention is very much inspiring and challenging. That is doing the simple, ordinary and little things with love. This love was the driving force, which lead her to win the Nobel Peace Prize in 1979.

According to St. Mother Teresa, “Children are God’s greatest gift to us. They deserve our love. Each one of them is created in the image and likeness of God. They not only deserve our love, they have a right to our respect. Each child has been created for greater things, to love and to be loved”. The sisters of the Missionaries of Charity continue these acts of love in taking care of the poor, the needy, the maimed, the orphaned, the destitute, the dying and those suffering from all manners of diseases, be it Tuberculosis, HIV/AIDS and even Leprosy.

I am happy to note that Navajeevan Bala Bhavan, Vijayawada has become a home for these less privileged children to build up their life and career over the past twenty seven years through acts of compassion.

The greatest gift, we can give to these unwanted, broken, underprivileged children is compassionate heart. In this process, at times we may feel unnoticed, unimportant, or unappreciated but what Mother Teresa and her sisters have given us is a chance to change that perspective. Once we change that perspective, we see how every little smile, every little interaction and every little task makes a big difference to become more and more compassionate towards children. So, let us continue to reach out to the needy and less fortunate with acts of love.

“Each Child is Created ‘to Love’ and ‘to be Loved”. St. Mother Teresa

About twenty five children from different groups covering from street to different rehabilitation centres participated in the programme. Fr. Pradeep, Fr. P. Jose and ten staff of Navajeevan guided the programme with their inspirational reflections and comments at different intervals during the scheduled programme. Often these Children become victims of financial crisis of home, family disputes, physical and psychological, sexual abuses, discrimination on the basis of gender and also due to migration of the parents. Consequently, these less fortunate children become addicted to street life and substance abuse, smoking and alcoholism.

In most of the cases, these children on the street suffer from identical crisis as they are not cared, rejected and unattended to their basic needs. Worse is that in some instances, they are unnecessarily blamed or targeted. At times, the society forgets to treat them and accept them for what they are. Definitely, their basic rights must be protected and respected.

The children participated in the workshop came up with many recommendations to address the needs of protection for the children in street situations. This workshop served as a platform for the children to come together to discuss their problems and share their issues in a larger group. This event was organized by the District Resource Team of Child Safety Net Project of Navajeevan.
